Purpose of this policy

To support Flinders Christian Community College in creating safe and respectful school environments where bullying and cyberbullying are not tolerated and to provide prevention and intervention strategies to reduce and address bullying, cyberbullying and other unacceptable behaviours if they occur.

Scope

This policy relates to Flinders Christian Community College staff, its students and parent community.

Definitions

**Bullying** is when someone, or a group of people, deliberately set out to intimidate, exclude, threaten, upset or hurt another person or damage their property, reputation or social acceptance on more than one occasion. There is an imbalance of power in incidents of bullying with the bully or bullies having more power at the time due to age, size, status or other reasons. Bullying targets another person repeatedly and may escalate in severity over time.

**Harassment** is when someone chronically annoys or torments another person.

This table describes the categories of bullying.

Cyberbullying

- direct verbal or indirect bullying behaviours using digital technologies to hurt another person socially, psychologically or even physically. This includes harassment via a mobile phone, setting up a defamatory personal website or deliberately excluding someone from social networking spaces. Cyberbullying can occur in many ways, including the sending of abusive texts and emails, hurtful messages, images or videos, imitating others online, excluding others online, humiliating others online and nasty online gossip and chat.

What bullying is not:

Note: Many distressing behaviours are not examples of bullying even though they are unpleasant and often require teacher intervention and management.

**Mutual conflict:** involves an argument or disagreement between people but not an imbalance of power. Both parties are upset and usually both want a resolution. Unresolved mutual conflict can develop into bullying if one of the parties targets the other repeatedly in retaliation.

**Social rejection or dislike:** is not bullying unless it involves deliberate and repeated attempts to cause distress, exclude or create dislike by others.

**Single-episode acts:** of nastiness or physical aggression are not the same as bullying. If someone is verbally abused or pushed on one occasion they are not being bullied. Nastiness or physical aggression that is directed towards many different people is not the same as bullying. However, this does not mean that single episodes of nastiness or physical aggression should be ignored or condoned as these are unacceptable behaviours.

**Policy Statement**

The College will adopt a whole school approach to addressing bullying and harassment and will seek to promote and support safe and respectful environments where bullying is not tolerated. The College will work in partnership with parents to reduce and manage bullying. As a college, we fully support Restorative Practices as a way of effectively confronting and reducing problems in school such as bullying by instilling a moral, ethical and social sense of fairness and justice amongst the school community.
