Hope & Purpose through Christian Education

DRUG EDUCATION & WELFARE POLICY

Flinders College seeks and strives to provide a safe, non-threatening environment in which each individual is encouraged to have a sense of self worth. As part of this mission, Flinders College aims to improve the quality and quantity of drug education and to reduce the amount of harm associated with drug use by young people.

This Policy also aims to ensure that a balanced, consistent approach to drug related welfare issues operates throughout the school community. Cigarettes, alcohol or any form of drugs are not permitted on College property, on any College excursion, at any College function or while a student is in College uniform.
